No. 5897-C/43 dated 28th January 1944.

Sir,

SUB: Government Industrial School, Bellary - Apprentices Supply of free mid-day meal - Proposals - Submitted

---

Several of the apprentices undergoing courses of study in the Government Industrial School, Bellary do not belong to the District of Bellary. Many of them come from the adjoining district of Kurnool, Anantapur, Guntur and Cuddapah. They are generally poor and to add to this, the Industrial School itself is over a mile from the town and therefore the apprentices experience great difficulty in obtaining their mid-day meal. The boys have been clamouring for provision of food and I suggest that a free mid-day meal be provided to such of them as are not the permanent residen of the town.

2. There are about 40 such apprentices in the school and the cost of providing them with one meal at noon is estimat at about Rs.11/- (Rupees eleven) a day. The number of working

It has been suggested that it would be advantageous for the Govt to provide a midday meal to the boys and recover the cost from the stipends paid to them.

The D. of D. Dte is requested to offer his remarks on the above suggestion

Enclosures:

No. 5897-C/43 dated 20th March 1944.

Sir,

Subject.-Government Industrial School, Bellary - apprentices-supply of free mid-day meal to - proposals - Regarding.

Reference.-Government Memorandum No.5689-D/44-1, dated 4th March 1944.

One meal per head per day proposed to be provided is expected to cost annas four to five and may increase still further if the cost of living index goes up. In G.O.No. Ms.633, Development Department dated 15th December 1942 the wages to be paid to these apprentices have been fixed at annas four, five, six and annas seven per day respectively during their study in the first to fifth years. If as suggested the cost of a mid-day meal to be supplied is to be recovered from the stipends then the value of their stipends should be increased to the extent necessary for as things stand stipend paid to the apprentices in the first two years

would

would hardly meet the cost thereof, while those paid to the rest will leave a trifling balance which will not be sufficient either to maintain the apprentices or enable them to continue their course of study till the end.

In the circumstances, I request that Government may be pleased to sanction the proposal to supply the apprentices free mid-day meal.

for Director of Industries and Commerce.

To Addl. A.S.

Please see the letter from the D Dte on pp 1-2 cf. The Govt. have provided mid-day meals to school children of certain Fisheries Schools and of Lab ools It does not appear that such a measure has been adopted generally in educational and technical institutions under Govt. control. The cost of the meals per head per day, as proposed by the D Dte works out to a little over four annas. The rate fixed in the case of the Fisheries Schools was 6 pies and in the case of the Labour Schools one anna per boy per day. If the proposals of the D Dte are accepted it may be difficult to resist similar proposals in respect of other schools under the control of the D Dte For orders whether this recommendation will be accepted E & P.H and Finance may see for remarks.

Dev 19.2.44

The apprentices in the Industrial School, Bellary receive stipends varying from 4 to 7 annas a day; and they pay no tuition fees — Vide T. M. from the D. I & C at pp 3:4 of (G).

Hart 28.2.44 DD 28.2.44 Y 29.2.44. Fin agrees that it would be an ~~precedent~~ unwise precedent to give free mid-day meals in this case.
